## Acting for tomorrow

Alliant Energy is working today to create a better tomorrow for our customers and communities. We use resources wisely, care for the environment and continuously improve ourselves and our company. This means finding innovative ways to address environmental challenges, operate more efficiently, and provide flexible energy resources. However, our commitment goes beyond environmental stewardship. We continue a long history of helping communities thrive, empowering neighbors in need and supporting educational opportunities.

## Clean energy vision

Advancing clean energy is a guiding principle to our company's future sustainability.

### By 2030:

- Renewables will be over 30% of our energy mix
- Carbon dioxide (CO<sub>2</sub>) emissions from fossil-fueled generation will be reduced by 40%
- Water supply needs from fossil-fueled generation will be decreased by 75%

### By 2050:

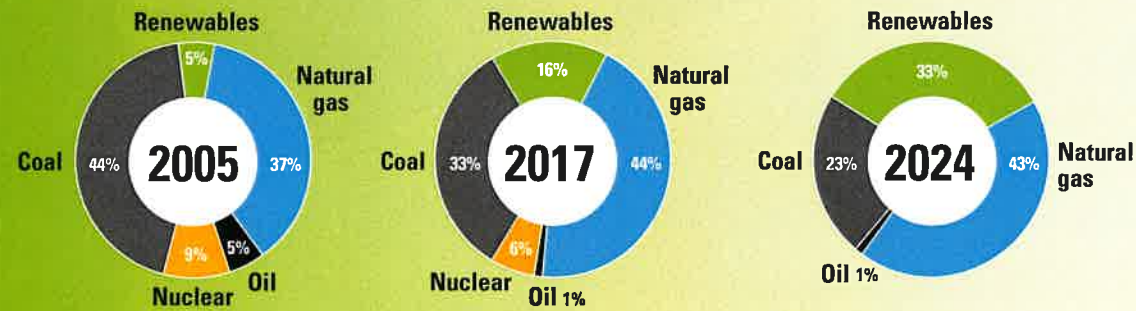

- We will eliminate all existing coal from our energy mix
- CO<sub>2</sub> emissions from fossil-fueled generation will be reduced by 80%

Our strategy will continue to adapt based on future economic developments and evolving energy technologies and trends in the communities we serve.

## Transitioning our energy resources\*

We are transitioning our energy to a cleaner mix and expanding cost-effective renewable resources.

\*Based on approximate capacity in megawatts  
As of August 2018

## Recent actions by the numbers

\$2 billion in projects underway to add 1,150 megawatts of new owned wind generation by 2021.

\$2.3+ billion planned investments to build smarter and more resilient energy infrastructure.

40% drop in fresh water withdrawals from 2005 levels.

155 residential and 33 commercial customer rebates for electric vehicle charging stations and non-road electrification uses, such as forklifts.

25% reduction in carbon dioxide (CO<sub>2</sub>) emissions from 2005 levels.

85% reduction in waste from large projects going to landfills.

93,000+ volunteer hours by employees and retirees to various charity organizations.

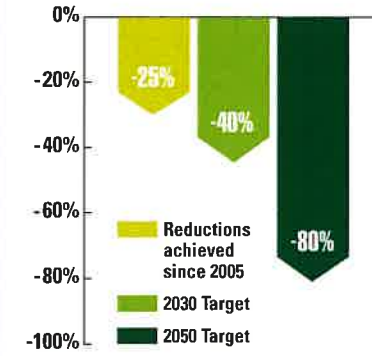

12 Alliant Energy Growth Sites throughout our service area.

50% of the Alliant Energy Board of Directors are women.

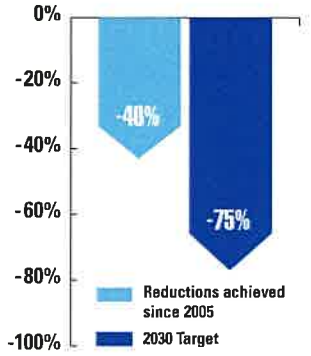

\$2 million in corporate giving to *Hometown Care* for electric and heating bill assistance to families in need.

### Reducing our CO<sub>2</sub> emissions\*

### Reducing our water supply needs\*

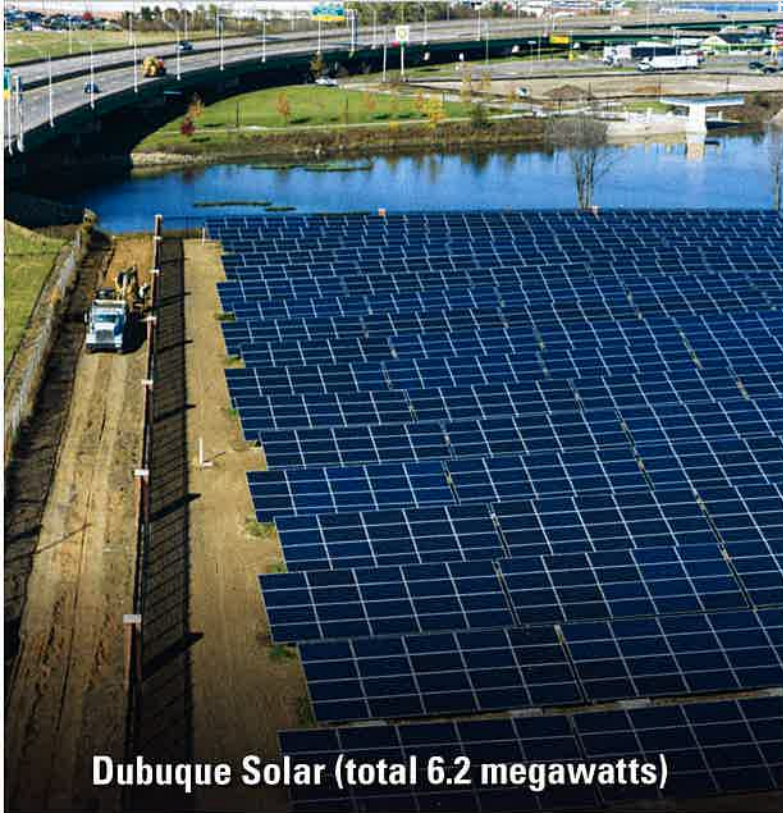

\*Owned fossil-fueled generation

We are making our power grid more reliable, secure and modern to support integration of new technologies like battery storage and electric vehicles.

## Dubuque Solar (total 6.2 megawatts)

First solar site in nation to receive Envision™  
Platinum sustainable infrastructure recognition

You will see icons identifying United Nations Sustainable Development Goals throughout our *Corporate Sustainability Report*. We are pleased to be part of this worldwide movement to align our actions for a better and more sustainable future.

## SUSTAINABLE DEVELOPMENT GOALS

The Alliant Energy Corporate Sustainability Report contains performance measures and data. This information can be found in the Governance and Performance section of the report.

**Forward-looking statement:** This brochure includes forward-looking statements which future plans or strategies, our clean energy vision, and future emissions reductions. Actual results could differ materially from those currently anticipated due to, among other things, regulatory approvals, construction issues, and other factors discussed in the *Corporate Sustainability Report* and our filings with the Securities and Exchange Commission. Alliant Energy disclaims all obligation to update these forward-looking statements.
